

Toronto Cosmetic Clinic's New E-Store

By Toronto Cosmetic Clinic

Dated: Mar 16, 2009

Premier cosmetic surgery clinic now offers clients the option of purchasing an array of skin and beauty products online.

At Toronto Cosmetic Clinic, we're constantly striving to raise the bar in the aesthetic medical field. We understand that your time is valuable and you can't always come to the clinic to pick up products when you need them. That's why we're ecstatic to announce the expansion of our website.

Pharmaceutical-grade skincare products, professional mineral-enriched cosmetics and the physician-formulated eyelash conditioner MD Lash Factor are now all available for purchase online. The convenience of 24-hour online shopping is just one more way that we're striving to meet your needs.

Toronto Cosmetic Clinic is proud to be the first and only practice in the city to offer professional level cosmetic and skin care products online.

It's been a long winter, but in just a couple of weeks it will finally be over. Prepare your skin for the warmer weather with Vivier and glominerals and welcome the new season with a new you!

Toronto Cosmetic Clinic is a premier cosmetic surgical clinic providing a complete range of procedures for the aesthetic improvement of an individual. Toronto Cosmetic Clinic is home to leading physicians in surgical and nonsurgical procedures.
